

# How to assemble your Cascades Fluff & Tuff® memory game

- ↓ Download this PDF and print it at home. You can use regular white paper or a thicker white paper if you have some available.
- 🖨 To print, be sure you select the Duplex mode in your printer's settings, so the cards are printed on both sides of the paper. If you don't have a colour printer or would like to save on ink, download the black and white version.
- ✂ Using scissors, cut out the cards along the lines.
- ✓ Time to exercise everyone's memories with Fluff™ and Tuff™!

## How to play

Once all the cards have been cut out, it's time to play!

Shuffle the cards well and place them into 4 rows of 5 cards. The youngest player goes first, followed by the player to their left, and so on. The player flips 2 cards, and if they match, the player keeps the pair. However, if the cards don't match, the player must place them back in their original position. A player's turn continues as long as they find pairs. The game ends when there are no more cards in play.

The player with the most pairs wins!
